Experience

ZopNow, Senior Software Engineer

Since Feb '13

Leading the front end development team along with helping out on the server side of things when needed. My main focus/responsibility is the re-factoring and deployment of the previous one-program traditional interface to a decoupled REST API, single page application, widget based, pushable approach to improve performance and maintainability. Along with this I take care of Android and HTML5 Mobile Applications as well as the experimentation for Responsive Design.

Jan '12 to Jan '13

abkya, Member of Technical Staff

Development and prototyping of several product concepts revolving around location based services focusing on mobile devices and the social web. I was mainly involved in development and consumption of REST services, UX engineering and web development, with some experimentation with content scraping and adding push capability to web applications.

Aug '08 to Dec '11

Infosys Ltd., Senior Systems Engineer

Development and maintenance, following a Agile Scrum model, of a web application, for an Airline Manufacturer, which serves as the single point of entry to many applications on the client's web portal. This enables users to perform a variety of monitoring and maintenance tasks, receive document updates on the changes/upgrades on the parts and components and other service related information of an aircraft.

Freelance

Developing web sites and applications for small scale businesses to medium scale businesses.

Education

Jun '04 to May '08

B. E. Information Technology, Pune University

58% - Vishwakarma Institute of Information Technology

[**PROJECTS**] Mobile location based reminder for Symbian phones for Final Year Project, WinSock based multi-player game for Network Studies, Courier management for Web Development and Database Management.

Apr '01 to May '04

Dip. in Computer Engineering, MSBTE

67% - Pimpri Chinchwad Polytechnic

Interests

Technology. Coding, gadgets and design. Often times together, if I can help it. **Music.** Tabla in school, Guitar since college. Formed a band and performed in a few competitions and café gigs. I claim to be able to play the Indian national anthem on any instrument. I also collect musical instruments when I can afford it. **Bikes. Travelling. Paragliding.**
